1959 IRIS CATALOG

IMPORTANT! PLEASE READ THIS BEFORE ORDERING

DEAR IRIS FRIENDS:

We wish to thank you all for the wonderful response made to our 1958 catalogue, and we wish to send SPECIAL THANKS for all the nice letters of appreciation we have received. You see, we know the thrill of opening an order of Iris and finding something nice and extra for which we did not pay for. It gives us a thrill also to put something extra in your orders that will be a surprise and also that will be appreciated.

We grow some of the finest and largest Iris rhizomes here in Idaho that we have ever seen. It gives us great pleasure to fill your orders with these nice roots, and also to put in something extra with your regular order; however, it does create a problem for us—transportation. The increased cost of postage can mean going in the red for us, when you consider the hundreds of orders we ship out and the hundreds of dollars we spend for transportation on these large roots and the extras you love to receive. If you will help us out on this, it will greatly reduce our transportation bill, will increase your cost only slightly, and in addition be of additional profit to you, thus helping us both. Below are the special offers we are making.

We recommend express shipments as the cost is not much different than mail and on the heavier orders it will be less. Safer, too, and not handled so roughly. We don't like to think every time we put in a nice large extra: "Well, this one is going to cost me 25c postage." How about it? Want to help us? Here it is. Thank you.

ORDERS \$5.00 or less Net. Postage and packing extra 75c.

ORDERS \$5.00 to \$10.00 Net prepaid.

ORDERS \$10.00 up Prepaid. On \$10.00 orders you may order 50% additional Iris at no extra charge. In addition, if you will pay express charges upon delivery, we will send you one 1958 Introduction **HOLY SMOKE**, value \$15.00, at no extra cost.

ORDERS \$15.00 up Prepaid. Plus 50% extra Iris. However, if you pay express, we will send you 1959 Introduction **IDAHO GOLD**, value \$20.00, at no cost to you.

ORDERS \$25.00 up plus 50% extra, One each of **IDAHO GOLD** and **HOLY SMOKE** at no extra charge. Express collect.

DISCOUNTS apply to everything in the Catalogue except Special Offers on back page, which ARE NET.

HOLY SMOKE and **IDAHO GOLD** only may be used on the Special Offers. Cash with order, please. Be sure to specify Iris wanted for the 50%.

Please specify second choice in case we are sold out on some variety.

SHIPMENT begins July 1.

Thank you,

Carl M. Smith

1959 IRIS INTRODUCTIONS

IDAHO GOLD (Eva Smith, '59) (Mary Randall x Thotmes III)

36 inches. Fine large deep buff yellow with orange yellow beard. Nice domed standards and flaring falls. Both standards and falls slightly ruffled. Rapid multiplier, lovely foliage, and lots of bloom. Nice branching **\$20.00**

CORALYNN (Eva Smith, '59) (Dolly Varden x Happy Birthday)

36 inches. Lovely large very delicate soft pink of good height and fine branching. Lovely lace on the standards, falls and style arms. Nice beard of orange yellow. Domed standards, flaring falls. Very good foliage, fine branching **\$20.00**

ORCHID PINAFORE (Eva Smith, '59) (Pinafore Lass x Unknown)

40 inches. Lovely large tall light orchid violet with white blaze on hafts and around the beard. Flowers are extra well placed with several open at once. Beard is very light lemon yellow. Standards and falls ruffled and laced **\$15.00**

MARGIE LEE (Eva Smith, '59) (Blue Sapphire x Unknown)

38 inches. Medium size blooms with standards light blue with a deeper blue wash on the blue falls. Lots of bright gold on the hafts and bright orange beard. A lovely jaunty Iris that would have been named Blue Fairy if that name had not already been taken **\$10.00**

1958 IRIS INTRODUCTIONS

GOLDEN MASTERPIECE (Eva Smith) No. 56-1. (Mary Randall x Truly Yours)

Late. Rich golden yellow with creamy white blaze on the falls. Both standards and falls have lovely deep ruffling. Standards are well domed, falls very broad and flare widely. Beard is bright orange yellow. The flower is large and substance is heavy. Everyone who saw it last year liked it very much.....**\$20.00**

LYNNETTE (Eva Smith) No. 54-114. (Sunray x Raspberry Ribbon)

Early mid-season. A lovely pale bluish lavender that might be called a white with an over-all wash of pale blue lavender deepening at the hafts. Beard is light yellow with a small white patch at each side of the beard. Falls are broad and nicely arching. Standards domed and lightly ruffled. Good size and good substance. Well liked last year in a regional show garden.....**\$15.00**

HOLY SMOKE (Eva Smith) No. 54-58. (Jane Phillips x Thotmes III)

A smoky lavender gray that is much more on the gray side than on the lavender. Really a smoky gray with a lavender wash deepening on the falls. Base of standards and haft are chartruse-old gold. Perhaps this flower would be called a blend. Beard bright orange, standards well domed and falls are arched. The flowers are large and of heavy substance. It received the seedling award last year at the Lewiston-Clarkston Iris Show as the best seedling in the show.....**\$15.00**

DWARF IRIS

Iris lovers who can hardly wait for the year's season to start have merely to plant some Dwarf Bearded Iris, and they'll have Iris blooming with the first inkling of Spring warmth. Indeed, the Dwarfs are up and in bloom with the Primulas and Daffodils, brightening up the rockery and perennial border, or making a splashy little edging — and they are so easy to grow. New improved colors have been added to the impressive list of charming old faithfuls — an amazing array of variety in hue and form. No Iris lover should deprive himself of this thrill.

EREMURUS (FOX TAIL LILY)

One of the finest of the hardy plants. Lovely in a well drained border. They grow in tall spikes from 3 feet up to 6 feet or more in well established plants.

The flowers grow in tall spikes with hundreds of tiny blooms all around the spike, opening from the bottom up like the delphinium. The colors are in beautiful shades of coppery pink, orange, yellow, white.

Each \$2.00 3 for \$5.00

HEMEROCALLIS (Daylilies)

Hemerocallis, or Daylilies as we usually call them, are one of the loveliest and one of the most satisfactory of Perennials. They are the easiest of all plants to grow. They seem to be happy in any location and in any soil. They need almost no care. They are the ideal plant for the person who has very little time for gardening.

If you have not tried these newer introductions of Daylilies, you are going to be surprised at their beauty. Be sure and try some.

Daylilies do exceptionally well transplanted in the early Fall. They will be sent to you on or about September first.

HOW TO GROW GERMAN IRIS

FIRST, order good rhizomes from a reliable grower. Order for delivery from July 1 on. Iris may be planted any time the ground isn't frozen, but July, August and September are the best. Plant roots immediately upon arrival. If this is not possible, store in a dry, well ventilated and cool place.

Plant in damp soil and water well. Do not water again for a week or ten days. The plant should be set fairly shallow but the entire rhizome section must be covered or thawing and freezing will cause injury. If you have severe weather in winter and not much snow, it is well to pull some soil up around the plant late in the fall as added protection, then remove it in the spring. If your soil is heavy and the drainage poor, it is well to plant your Iris on a slight ridge so the water will drain away.

A top dressing between the rows of well-rotted cow manure early in the spring will add much beauty to your blooms. A half cup of bone meal worked into the soil around the roots at planting time is very beneficial.

CERAMICS

ARE YOU BORED? Do you wish you had something to do on long winter days and evenings? Well, do as we have.

TRY CERAMICS. It's lots of fun. We wish it were possible for you that are interested in this hobby to visit us and set down at our work table and paint with us and just talk. However, we realize there are a good many of you who can't do this, but at the same time there are a good many who can; so we extend an invitation to you to visit our basement workroom studio. If you can't come, write. We have greenware, bisque, stains, glazes and other supplies.

ROCKS

If you think Ceramics are too sissy, try rocks. Yes, one member of the firm is a rockhound. We have a lot of nice Gem stone material from many places. Petrified Wood from Arizona, Agate from Montana, Apache Tears from Arizona, Agate from Mexico, Tiger Eye from Africa, and a lot of others. Also Highland Park Dealer. Let us know what you need or, if possible, visit us.

If you have friends who you think would like a copy of this catalogue, please send us their name and address.

A Comforting Thought: "For God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish but have everlasting life." John 3:16
